"Let Us Alone."

This noli-me-tangere doctrine of Secession is honest, and the rattlesnake is a fit em. blem of the doctrine. The serpent goes wherever it pleases, basks in the sun upon the path where all must pass, and only gives its tempting warning if any one seeks to go near, to indicate that it wants to be let alone.

There is an old promise that man's heel should bruise the serpent's head, and in a good old orthodox way, man has been per forming that very commendable feat, and considering that he did right, and not withstanding the "let us alone" threat of Secession, we feel that it is right, as far as possible, to subject the head of the serpent Secession to the same punishment.

A plea to be let alone should be justified by proof that the party making it has done nothing to demand interference. It is pretty clear doctrine that if an individual is doing wrong, he cannot plead to be let alone when he is stopped, and it is an old saying:

"No rogue ere felt the halter draw With good opinion of the law."

What has Secession done, and what is it doing? We might pass over the seizure of forts and arsenals, the firing on Sumpter, and try them by their own test of States'

Missouri has voted for the Union: is a tive enactment, nor even by the voice of her fuzitive Governor, nor in any manner that had the slightest color or pretense of authority, declared her wish to go into the For several days before their departure two Southern Confederacy. Yet the President of all Secessiondom, in a formal proclamation, declares Missouri to be a part of the disbanding. Southern Confederacy. Must the coil of the serpent be passed around Missouri, and because the hiss and rattle of "let us alone" is heard, must she be given up to Secession, and her people oppressed and down trodden? The policy may sound very peaceful, and, as a catch-word, it sounds Numbers escaped in the confusion. well, but would it be just to the Union men of Missouri, while Arkansas and Louisiana are peuring in troops by the thousands against them, to let them alone?

Another indication of the modesty of Secessiondom is the last military order in which Delaware and Maryland are included itary department is, is known well-enough, d we must expect hostile armies to invade them as soon as they are prepared. Doubtless there is an earnest desire, on the part of Jeff. Davis & Co., not to be interfered with in this gentle pastime and pleasing excursion, and the coiled snake, and "don't tread on me." will be sent forward at the head of the invaders. We suppose this will hardly be allowed, and that the Federal armies will coerce them out of those States.

Washington is now besieged on one side. The lines of the Confederate armies, drawn by able Generals, are rapidly closing up, until they are so near it can be seen when dress parade is going on in their camps The object is the seiznre of the Federal Capitol and all the archives of the Government. We have no doubt they desire to be let alone in this. They do not wish, in any way, to be interfered with while they pursue the peaceful plan of sacking the city.

In Kentucky they are inspired with a like spirit. They burn bridges, kidnap citizens, steal the State guns, pleading all the while for peace. They have a most earnest desire to be let alone, and like their favorite reptile, spring the rattle of "let us alone," if any one attempts to interfere.

There are many of them, we are glad to say, who entirely disapprove of this, but the misfortune is, that the leaders and promoers of the party, and their presses, rather xcuse and approve of it.

Ought they to be let alone? To that portion of them who sincerely desire peace, we put the question: Can they be let alone, and any peace be obtained?

Carelina writes to the Courier to say that Cape Hatteras, recently taken by the United States Navy, is of "no military importance whatever." That word from Capt. Caroline, is a great relief, and its being of no military importance, accounts at once for the unconditional surrender of twentyfive pieces of cannon and 615 men, which had been put to guard it. The Southern Confederacy is not, perhaps, in the habit of putting such a strong force in an unimporThe Southern Army.

This damnable mode of war named the "Monroe" Guards, after the fare is confined to the advocates of Seces-Mayor. The company raised, at a considerable expense, Captain Goldman found himself unable to olothe them. It shows the lawlessness of the shoes for his men, by advice he changed the name of his company to the Black Rifles, af ter Mr. Black, of New Orleans.

A few days after, the Mayor, having heard of this, brought up the old charge of brother that fifteen or twenty men had been sent to waylay him, and was also advised by him to escape, if possible, to the Union States. After various chances he reached this city some two weeks ago.

Mr. Goldman was in the dry goods basiness, a Polander by birth, and his company was attached to General Tochman's Polish Brigade. General Tcchman, it will be remembered, was the teacher of foreign languages in the old Lonisville College.

The accounts given of the manner in which enlistments are made is absolutely shooking. Men are made drunk, knocked down, and confined in the cotion presses under guards of sentries until they consent to enlist. They are removed to camp, and then watched and guarded with scrupulous attention. As an instance, the first regi-Union State, as far as the popular will is ment of Tochman's brigade, under command concerned. She has never, by any legisla- of Col. The presence of Russell, of the London Times, is supposed to have caused this. As to the other foreign Consuls, not one of them has done anything, but, on the contrary, all contribute money and encouragement to induce enlistments, and refuse protection to their countrymen. In short, it is such a picture of mobocracy in its most degraded and reckless sense, as would make any one shudder to contemplate. And that, be it borne in mind, is in the freest city of the Southern Confederacy, where the Union feeling was the strongest The property holders in New Orleans, Capt. Goldman informs us, and all of the respectable portion of the people, are in favor of the Union, but, for reasons already given, dare not speak out. The trusts committed to you were of high moment, and the positions occupied by you have been dignified and elevated. There is among you at least as much, and perhaps more, of the elements of justice, truth, charity, and conservatism, and I add patriotism, as can be found among a similar number of men in the whole world. There is also as much of intelligence, matured by age and tempered by the constant habit of cherishing kind and benevolent disposi-

Holding the positions, then, which you do, when immense perils to honored institutions, to civil liberty, and to the hopes of progress among mankind are impending over us, you cannot, in view of your own tremendous responsibilities, resist the grand duty of making sincere and honest efforts to save a sinking country from the reck, ruin, and desolation, new not only threatening our own great and beloved land, but

actually sweeping over it.

It must be evident, conspicuously so, to every observant and reflecting citizen, that the politicians, who claim to be our statesmen, both Samb and to speedy ruin and dissolution. The positions taken by both parties are such that no adjustment between them can possibly occur. So far from it, the breaches are every day widening and deepening; and unless better dispositions shall shortly be manifested, every vestige of a hope of settlement, except in extermina-

Silently, sorrowfully, and sadly I have been contemplating the heart-rending condition of the country, and have been casting about to find some body of men who might form a nucleus around which the peace-loving and peace-seeking conservatism of the nation might rally; and I have come to the conclusion that, if such a body of men exist in the whole land, you are that body of men. You are not politicians, but patriots, who love your country, its glory and prosperity, and embrace all the American people in the outstretched arms of an expansive love. It will not be necessary or proper for you

o form yourselves into a political party, or to seek political position or distinction, but simply as just, conservative, patriotio men, to meet and confer together in a becoming, compromising spirit, as an advisory assem bly, with an anxious desire to rise above all sectional feelings, and view, from an elevated stand-point, the whole condition of affairs, and the whole issues before the country, and, if possible, devise some fair and just plan by which the discordant and belligerent interests, which are now in such fearful hostile array, may be assuaged into peace and adjustment. acter of that plan should be, I will not anticipate in any way, but, it seems to me, something better can be done than a resort to the horrible necessity of drenching the land in fraternal gore, and involving us all in universal bankrnptcy of wealth, morals and religion for many years to come. Cool, calm, peaceful counsels, seem to me much better than the ardent conflicts of a most acquinary fratricidal strife.

I therefore appeal to you to meet here in coursville, on neutral ground, on the third Monday in October next, where you will be hospitably entertained, and consult upon the most feasible plan of fraternal and honorable adjustment. And, if we shall be able to recommend some plan which will heal the woes of the country, or make surgestions which may lead to such a result, we will have accomplished a good, far greater than any other which in life we will ever be able to accomplish. Let us come egether from the East, West, North and uth, in a spirit of enlarged and tender fraternity, as patriotic men, and, in the providence of God, we may be able to give out a lead which may redound to the salvaion of our nation, or arrest the terrible national calamities now impending over us.

President Lawes writes:

"Mr. Fisher has been our Professor of Latin for six years; and if Westminster ever needs a man in his denartment again, he will be sought for from the ends of the land. He is the best Latin scholar and teached I have ever known. He writes and speaks the L-tin fluently, and drills his boys to do the same, and is the only man I have ever known to succeed at it. He is very strabble, and mild, and gentlemanly, and yet one of the most successful di-cipilnarians I have ever known, being exceedingly prompt and accurate in managing a class. He is passionately fond of teaching, and remarkably successful at it. His wife is a gifted and highly cultivated musician. She reads the most difficult music, and is the composer of a number of pleces found in the music stores. Her singing and playing are not those of a mere amat ur. Beth she and her husband have had experience in teaching young ladies. Having known Professor Fisher long and intimately, I love bim as a brother, and know his worth as a gentleman, a scholar, and Christian of as pure and guileless a character as ever lived."

The enemy are con-centrating a large force south of Alexan-dria, and are also erecting batteries near the month of the Occocquan river.

Heavy firing has been heard this morning from the direction of our lines on the opposite shore of the Potomac, but no reports of a battle have been received.

The Navy Department is more active than ever. From the preparations making, it is evident the affair at Hatteras is to be followed up by other attacks. Washington, September 3 .- The Gov-

BALTIMORE, September 3 .- The Baltimore American of to-day says that no rebel troops were at Winchester Thursday except a few who were sick. At Leesburg there are three or four regiments; one at Waterford, above the Point of Rocks, and one at Goose Creek.

Letters from rebel soldiers at Richmond state that the troops are in a sad state of destitution, being barefooted and in want of snitable clothing. The skins in a tannery at Hillsboro had been taken, dripping from the vats, to convert into shoes. horses of the Union and disunion farmers had been seized, which act had created the greatest dissatisfaction. The want of confidence is increasing daily, the hopes of the rebels being kept up by reports that the General Government had only 30,000 troops around Washington and find it impossible to

recruit any more. SPRINGFIELD, Sept. 3.—Thirty eight of the Dent County Home Guards were surprised early Tuesday merging at Brunett's Mill by 850 rebels and two of them killed and eight wounded, one mortally. The killed and wounded of the rebels filled large wagons, but their number could not be

ascertained. The Guards reirested. Eighteen secession prisoners, taken by the Guards the day before, were confined. Mistaking the house in which they were and them for Unionists, the rebels fired upon them, wounding several.

NEW YORK, Sept. S .- John C. Rahming, merchant at 36 South street, was arrested last evening on a charge of treason. C The captain declined to enter in the business, and subsequently the matter came to the knowledge of the police authorities. Rahming is native of the West Indies. He was sent to Fort Lafavette.

> THE FLORENCE NIGHTINGALE OF THE NUR-SERY .- The following is an extract from a letter written by the Rev. C Z Weber, to the "German Reformed Messenger," at Chambersburg, Penn.:

> A Benefactress -There is a woman in the public eye whose name had all along been associated, in our mind, with the "l'ankee." 'Quack," and "Humbug." But it is so no longer, and we desire to wrest her name from all such suspicious association in all other minds. Whatever notions we may have of womanly delicacy and propriety, wewill all admit, that woman alone is the Nurse—the good Nurse—the best Nurse. Whether we shall have Female Physicians or not is a question which must be decided by time and principle, and not as a matter of taste. Pride, prejudice, caprice and custom, may as well behave themselves, for if there is really a want, there will also be a supply if there be "a calling," there will be a coming Nature and Human Society are always self supplying, and though Art and Fashion

may hinder, they cannot prevent. Mrs. Winslow does not want to treat you gentlemen! Nor does she prescribe a regimen for your wives, but modestly appears as a messenger of health and happiness to your INFANTS in the cradle. Is there anything improper in that? A Nurse of "ten years'" experience can boldly say what is or is not good for a babe—and ought to be listened to. God speed her on her hamble but happy mission. She is the most successful physician and most effectual benefactress our lit's one ever enjoyed—her doting parents not excepted. Just open the door for her, and Mrs. Winslow will prove the American Florence Nightingale of the nursery. Of this we are so sure, that we will teach our "Susy" to say "A Blessing on Mrs. Winslow," for helping her to survive and escape the griping, colicking and teething seige. We confirm every word set forth in the Prospectus. It performs precisely what it professes to perform, every part of it—nothing less. Away with your "Cor-dial," "Paregoric," "Drops," "Laudanum," and every other "Narcotic" by which the babe is drngged into stnpidity, and ren-

dered dull and idiotic for life. We have never seen Mrs. Winslow-know her only through the preparation of her "Soothing Sirup for Children Teething" If we had the power we would make her, as she is, a physical savior to the Infant Race.

PROF. O. J. The inquiries are thur, is it a fac of my habitation and name, as shaded to the communication; second, is it true of all thereis constance; third does my hair still confinue to be in good order and on atural color? To all I can and denower invariably yes. My hair is even better than in any stage of my life for 40 years past—more soft, thrifty, and better colored the same is true of my whisers, as is the only canne while is not generally rune, is that the substance is washed. been in the receipt of a great number of letters from all parts of New England, asking ne if my hair still continues to be good; as there is so much trand in the manufacture and sale of various compounds, as well as this, it has, no death, been basely timizated and been used, not only without any good effect, but to absolute injury. I have not used any of your Restorative of any account for some mouths, and yet my hair is as good as ever, and hundreds have examined it with surprise, as I am now 61 years old and not a gray hair in my head or on my face; and to prove this fact, I send you a lock of my hair taken of the past week. I received your favor of two quart bottles last summer, for which I am very grateful. I gave it to my richeds and thereby middled them to try it; many were alequical until after trial, and then purchased and used it with universal success. PROF. O J. After noing every kind of Restoratives extant, but without success, and inding my heat nearly destitute of hair, I was finally induced to try a totale of your Hair Restorative. Now, candor and justice compel me to announce to wheever may read this, that I now possess a new and beautiful growth of hair, which I pronounce richer and handsomer than the oritinal was. I will therefore take occasion to recommend this invaluable remedy to all who may feel the necessity of your Hair Restorative is put up in bottles of three sites, with large, medium, and small; the small hol
